Randolph New Hampshire

ANNUAL REPORT
2006

TOWN DIRECTORY

AMBULANCE Call 911

Bill & Barbara Arnold, Life Squad Directors

You are encouraged to call 911 to request an ambulance; the Life Squad will be dispatched at the same time.

FIRE DEPARTMENT Call 911

Dana Horne, Chief

Gorham provides emergency dispatch service for Fire, Police, and Life Squad.

RANDOLPH POLICE Call 911 or 466-3950

G. Alan Lowe Jr., Chief

If there is no response from the Randolph Police, contact **State Police at 603-846-3333**.

BUILDING PERMITS, DRIVEWAY PERMITS, SIGN PERMITS 466-5771

A building permit is required when: a building or structure is constructed, relocated, demolished, outside dimensions are altered, or when a project other than normal maintenance is expected to exceed \$4,000.00. The Land Use Ordinance and Permit applications may be obtained from the Selectmen's office or on line at Randolph.nh.gov.

BURNING PERMITS 466-2332

Becky Parker, Forest Fire Warden

A permit must be obtained from Becky Parker or Alan Lowe for any outdoor fire.

CEMETERY 466-5771

James Penney, Chairman

Our cemeteries are public. Applications for plots can be obtained from the Trustees or Selectmen.

CONSERVATION COMMISSION

Jim Meiklejohn, Chairman

The Conservation Commission meets at 7 PM at the Town Hall on the first Sunday of alternate months. All meetings are open to the public.

DOG LICENSES 466-5771

Anne Kenison, Town Clerk

Dog licenses must be obtained or renewed by the end of April each year.

LAND USE ORDINANCE

The land use ordinance is available at the Selectmen's Office or online at Randolph.nh.gov.

LIBRARY 466-5408

Margaret Meiklejohn, Chairman; Yvonne Jenkins, Librarian; Julie Barrow, Assistant Librarian

The library is open June to September

WARRANT

POLLS WILL BE OPEN FROM 2 PM UNTIL 7 PM

To the inhabitants of the Town of Randolph in the County of Coos in said State,
Qualified to vote in Town affairs: You are hereby notified to meet in the Town Hall in said Randolph on Tuesday, the Thirteenth of March, next, at five of the clock in the afternoon to:

1. Choose by ballot all necessary Town Officers.
2. To vote by ballot to see if the Town will amend the Randolph Land-Use Ordinance Section 5.02 to clarify the regulation requiring frontage for new lots, as recommended by the Planning Board. (Full text published in Town Report)
3. To vote by ballot to see if the Town will amend the Randolph Land-Use Ordinance Sections 9.02 and 9.12 to allow lands not yet covered by conservation easements to be made part of the Randolph Community Forest and to increase the minimum balance required for the Town Forest Revolving Fund before monies can be transferred from it to the Town, as recommended by the Planning Board. (Full text published in Town Report)
4. To vote by ballot to see if the Town will amend Article VII, and other related sections, of the Randolph Land-Use Ordinance to update the Randolph regulations regarding the installation and maintenance of telecommunication towers and bring them in line with the rapidly evolving technology, as recommended by the Planning Board. (Full text published in Town Report)

FOR EACH OF THE FOLLOWING ARTICLES:

TO SEE IF THE TOWN WILL VOTE TO

(a majority vote is required on each unless otherwise noted)

5. Raise and appropriate \$41,525 for **EXECUTIVE EXPENSES** to include:

Selectmen's Secretary & Office Expenses	28,725
Town Officers' Stipends	12,800

6. Raise and appropriate \$57,300 for **GENERAL GOVERNMENT** to include:

4100 General Government	
4140 Elections & Registrations	2,900
4150 Financial Administration	5,650
4152 Revaluation of Property	5,800
4153 Legal Expenses	6,300
4155 Personnel Administration	10,000
4191 Planning & Zoning	2,700
4194 General Government Building	8,550
4195 Cemeteries	1,900
4196 Insurance	12,000
4197 Regional Associations & Ads	1,500

7. Raise and appropriate \$47,500 for **PUBLIC SAFETY** to include:

4200 Public Safety	
4210 Police	4,700
4215 Ambulance	15,000
4220 Fire	20,800
4299 Other Public Safety	7,000

\$7,500 of the above amount to be raised from surplus.

8. Raise and appropriate \$91,850 for **HIGHWAYS & STREETS** to include:

4310 Highway & Streets	
4311 General Highway	30,350
4312 Highway & Streets - Summer	25,000
4312 Highway & Streets - Winter	34,000
4316 Street Lighting	2,500

9. Authorize the Selectmen to enter into a two year contract for the collection and hauling of Municipal Solid Waste and Recyclables. \$250 per pickup for weekly solid waste collection and hauling and \$435 per pickup for monthly pickup and transport of recyclables for a total of \$18,220 per year.

10. Raise and appropriate \$38,545 for **SANITATION, HEALTH, & WELFARE** to include:

4320 Sanitation	
4323 Solid Waste Collection	13,000
4324 Solid Waste Disposal	15,045
4325 Solid Waste Clean-Up	6,000
4326 Sewage Collection & Disposal	500
4400 Health	
4415 General Agencies & Hospitals	2000
4440 Welfare	
4445 Welfare, vendor payments	2,000

11. Raise and appropriate \$18,040 for **CULTURE, RECREATION, and CONSERVATION** to include:

4500 Culture & Recreation	
4520 Parks & Recreation	11,400
4550 Library	4,050
4583 Patriotic Purposes	100
4589 Other Culture & Recreation	1,800
4610 Conservation	
4611 General Expense	690

12. Raise and appropriate \$23,809 for **DEBT SERVICE** to include:

4700 Debt Service	
4711 Principal – Long Term Note	13,333
4721 Interest – Long Term Note	8,476
4723 Interest on Tax Anticipation Note	2,000

13. Authorize the Selectmen to sell the approximately 4.5 Acre parcel of land shown on Randolph Tax Map R14 as Lot 5 and located on the north side of US Route 2 (east of Farrar's) acquired by tax collector's deed in 1946 and previously held as a possible site for the municipal building complex which was subsequently built on Pinkham "B" Road. Such authority to continue until rescinded.
14. Raise and appropriate the sum of \$50,000 for the purpose of building, renovating, or furnishing and equipping the Randolph Town Hall. Funds to come from surplus. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the Town Hall Renovations are complete or by March 15, 2009, whichever is sooner. The Selectmen recommend this appropriation.
15. Raise and appropriate \$30,000 and place in the **Highway Heavy Vehicle and Equipment Capital Reserve Fund**.
16. Raise and appropriate \$50,000 and place in the **Town Road Improvements Expendable Trust Fund**.
17. Raise and appropriate \$35,000 and place in the **Town Buildings Improvements and Repair Expendable Trust Fund**, \$25,000 to be raised from surplus.
18. Raise and appropriate \$5,000 and place in the **Fire Equipment and Protection Improvement Expendable Trust Fund**.
19. Raise and appropriate \$10,000 and place in the **Expendable Trust for Revaluation of Town Property**.
20. Raise and appropriate \$5,000 and place in the **Town Recreation Facility and Equipment Maintenance Fund**.
21. Raise and appropriate \$1,000 and place in the **Audit Expendable Trust Fund**.
22. Raise and appropriate \$1,000 and place in the **Record Preservation Expendable Trust Fund**.
23. Discontinue the **Municipal Building Expendable Trust** (balance approximately \$5,400), and raise and appropriate from surplus \$5,400 and place in the **Town Buildings Improvements and Repair Expendable Trust**.

24. Designate as Town Forest land a 5.0 acre parcel of land abutting the Town Forest to the south of Castleview Rock, shown on Randolph tax map R10 as lot 32, purchased from David Dernbach with the contributions of many generous citizens. This parcel to be known as "The Boothman Tract".
25. Authorize the Selectmen to negotiate the terms of, and enter into, an agreement with the Town of Gorham concerning the watershed protection land owned by the Town of Gorham and located in Randolph and shown on the Tax Maps of Randolph as Map R4 Lot 1, Map R5 Lot 3, & Map R10 Lot 2, being approximately 2,747 acres in aggregate, under which agreement the Town of Randolph would receive a conservation easement, or a third-party right to enforce a conservation easement granted to another entity, and giving the Town of Randolph a legal right to prevent future development of that Gorham land, and further, as compensation for acquiring that right, the annual payment required from the Town of Gorham to the Town of Randolph on account of that land would be reduced, from the current amount of the payment-in-lieu-of-taxes as set forth in RSA 72:11, to an amount which would be based upon an assessment level, to be agreed upon, within the range of assessments levels for discretionary easement land, as set forth in RSA 79-C:7, together with a promise by the Town of Randolph that if such reduction were ever declared invalid, or if the Town of Gorham otherwise became liable to the Town of Randolph for a payment in excess of the level agreed upon, the Town of Randolph would be responsible for such excess."
26. Raise and appropriate the sum of \$1,000 for the purpose of supporting the Family Resource Center at Gorham. (Placed on the Warrant by the petition of 11 Randolph residents)
27. Go on record in support of effective actions by the President and the Congress to address the issue of climate change which is increasingly harmful to the environment and economy of New Hampshire and to the future well being of the people of Randolph, New Hampshire. These actions include: 1) Establishment of a national program requiring reductions of U.S. greenhouse gas emissions while protecting the U.S. economy. 2) Creation of a major national research initiative to foster rapid development of sustainable energy technologies thereby stimulating new jobs and investment. In addition, the Town of Randolph encourages New Hampshire citizens to work for emissions reductions within their communities and we ask that *the committee responsible for overseeing the planning and construction of the new Town Hall look into ways to ensure that the building meets reasonable standards for saving energy and reducing emissions.* The record of the vote on this article shall be transmitted to the New Hampshire Congressional delegation, to the President of the United States, and to declared candidates for those offices. (Placed on the Warrant by the petition of 12 Randolph residents)

28. Go on record in support of effective actions by the President and the Congress to address the issue of climate change which is increasingly harmful to the environment and economy of New Hampshire and to the future well being of the people of Randolph, New Hampshire. These actions include: 1) Establishment of a national program requiring reductions of U.S. greenhouse gas emissions while protecting the U.S. economy. 2) Creation of a major national research initiative to foster rapid development of sustainable energy technologies thereby stimulating new jobs and investment. In addition, the Town of Randolph encourages New Hampshire citizens to work for emissions reductions within their communities and we ask that *our Selectmen consider the appointment of a voluntary energy committee to recommend local steps to save energy and reduce emissions*. The record of the vote on this article shall be transmitted to the New Hampshire Congressional delegation, to the President of the United States, and to declared candidates for those offices. (Placed on the Warrant by the petition of 15 Randolph residents)
29. Accept the sum of all money, cash and pledges, raised by the Friends of the Randolph Public Library for the construction of a new public library said sum to be held and administered by the Library Trustees. (Placed on the Warrant by the petition of 10 Randolph residents)
30. Transact any additional business that may legally come before this meeting.

BOARD OF SELECTMEN:

Kenneth R. Lee, Chairman
Sara B. Glines
John W. Turner

2007 Selectmen's Report and Town Hall Committee Report

Dear Randolphians,

As we approach Town Meeting for 2007 the issues which will draw the most attention are articles dealing with the renovation and expansion of the Town Hall and Offices, the proposal by the Friends of the Randolph Library to build an addition to the new Town building, and land conservation articles: one of which would add to the Town Forest a parcel of land to be purchased from David Dernbach entirely with contributions from many generous people interested in the Forest, while another would secure a conservation easement on the portion of the Gorham Town Forest located in Randolph. We have combined the Selectmen's comments with the Town Hall Committee Report as they are intertwined for the first two subjects.

The Town has acquired [or will shortly] a 5 acre parcel abutting the Town Forest on two sides from David Dernbach. This parcel has been purchased entirely with contributions. The intent of all contributors was to make this a part of the Town Forest, which needs a formal vote of the Town Meeting. The Selectmen feel the donors should be thanked and the article be ratified.

Another article affecting the Town Forest is one dealing with the land in Randolph owned by the Town of Gorham and used as watershed for the Icy Gulch Dam. Past applications for classification of this land as Current Use Land have been rejected on the basis of state law which seeks to protect smaller communities from being subjugated to larger community's water needs, so this land has been taxed at full value as back land. We now have the opportunity to negotiate to secure a permanent conservation easement on this land which abuts the Randolph Town Forest on the east and includes the ridgeline east from Mt. Crescent. The effect of the easement would be to remove the possibility that Gorham might decide someday to sell this land for development, a move that would have large cost consequences for our Town. In exchange for the conservation easement, Randolph would agree to assess the land at rates equivalent to those for similar land in current use classification. The last line of the article is there because this clause is needed for legal reasons in order to ensure the easement is permanent.

We want to once again thank Hersh Cross for making possible the Town Hall Expansion and Renovation project. Since last year's report where we told you we had hired an architect, we've made substantial progress. A Construction Manager, Glen Builders, was hired to help us with cost estimates and advise on appropriate design decisions from a hands-on perspective. We've continued to refine the plans and specifications and now have a building design that we feel will meet the needs of the Town into the foreseeable future.

An expanded meeting space with double the seating capacity of the old meeting hall is the primary focus of the plan. This meeting space includes an alcove that will serve as the voting area during Town Meeting. When not set up for voting, the alcove will provide both additional seating and space for serving tables. In order to make the delivery of meals prepared in the relocated and updated kitchen easier, there will be a pass through serving window to the alcove area.

A new wing to the west of the present office wing is also planned. This wing will feature a ground level ADA compliant entrance without the need for serpentine outside ramps. This will lead to an entrance hallway large enough for informal conversations and seating for

those waiting to do business in the offices. Office space for the Town Clerk, Tax Collector, Treasurer, and Selectmen will be provided as well as a room specifically designed for storage of historical Town documents. There will be Men's and Women's restrooms and handicap accessible toilet facilities – a vast improvement from our current “one holer” off the kitchen. The other highlight is the committee room – boards and committees must no longer meet in the kitchen, although that will remain an optional venue for overflow meeting space. The committee room is large enough for 30 plus people who may be observers and applicants at a Planning Board session or may be a group gathered to hear a speaker or view audio-visual presentations. Our “Town House”, as the building was referred to in its early days, will become a true Community Center with facilities for both small groups and large groups while also providing the amenities of kitchen facilities and adequate, accessible restroom facilities.

The plans for the Town Hall construction are being finalized as this is being written and we have a target of signing construction contracts on April 2nd. Our preliminary construction cost estimates and our available funds are about equal with cost exceeding funds by about \$13,000. We know that there will be cost reductions in some areas, but there will also be unexpected additions, so there is a warrant article calling for \$50,000 to be available from surplus funds to be used for construction costs and to cover contingencies, as there will be unknowns in the reconstruction of the older buildings and in the ledge known to underlie the building footprint. There is also a warrant article for a larger than normal contribution to the Town Buildings Improvement and Repair Trust Fund. Some of this fund will be used to provide furnishings and equipment for the new facilities.

As we started the final phases of planning for construction of the Town Hall, the Friends of the Library group had raised enough money to be optimistic about their ability to fund a library addition to the Town Hall. By tying into the new office wing, they would be able to build a building without having to provide toilet facilities and would also have direct access to the Community Center features provided by the Town Hall: the meeting rooms and kitchen. The Library Committee has hired the same architect and construction manager to provide preconstruction advice and estimates, and the Town Hall Committee and Library Committee have agreed that all costs that would not be incurred to build the Town Hall as a stand-alone project will be paid from the Library funds. The construction manager has told us that there would be savings from constructing both projects simultaneously, mainly in the form of supervisory, support, and equipment costs that would not be duplicated. These savings would be shared proportionately between the two groups.

Construction of the library addition is still tentative, dependant on the “Friends” receiving the last of their pledges and grants, and also upon a favorable vote of Town Meeting agreeing to accept their funds. (Acceptance of the funds will indicate that the Town agrees to the construction of the library as a Town building and accepts the obligation of ongoing maintenance of the building and anticipated increased operating expense.) To cover either eventuality, alternative plans and cost estimates have been developed for constructing the Town Hall alone or for constructing the two projects together.

If the library article is accepted by Town Meeting, formal agreements as to the specific division of costs will be reached. Final negotiations with the construction manager will settle the cost for the chosen project scope, and construction will begin. Next year's Town Meeting will be in the new Cross Memorial Meeting Room!

Sincerely,

Kenneth R. Lee, Chairman

For the Board of Selectmen and the Town Hall Committee

Randolph Fire Department
Report for 2006

The Randolph fire Department had a quiet year in 2006. Most of the department's calls being to assist the ambulance at car accidents. We continue to be active in the North PAC Mutual Aid system mostly assisting Jefferson and Gorham.

Regrettably, we were not able to do our Annual White Goods Collection due to lack of man power. Hopefully, we will be able to do the collection in 2007.

In July, the department held a pancake breakfast in conjunction with the library's duck race. The breakfast was a big success and a good fundraiser for the department. In August, the department had a barbeque in place of the usual spaghetti supper. Profit raised by these fundraisers is used by the department for equipment and training.

As in the past, we are always looking for people to join the Randolph Fire Department. We continue to seek men and women over the age of 18 who are interested in helping in any way.

Again, I would like to thank the members for their continued support and dedication to the town and their department.

As a reminder, the town has chimney brushes which are available for use by anyone in town and can be obtained at the fire department. Another important safety tip for all homes is to remember to change the batteries in your smoke detectors. Another good investment for your home is the purchase of a carbon monoxide detector. Have a fire safe year in 2007.

Respectfully Submitted,

Dana Horne, Randolph Fire Chief

Randolph Life Squad Report
2006

In 2006, the Randolph Life Squad responded to about 12 calls. If this number seems vague, it is due to the fact that the squad joined the 21st Century and is now reporting all calls electronically. While this is great for state data collection, local records are more easily counted when on paper. The majority of the calls were medical in nature.

As part of our technological upgrades, we now have digital radios and pagers that are linked to Gorham Dispatch through a second repeater on Pine Mountain. The radios were obtained through a Homeland Security grant thereby saving the Town \$2500 per radio. The new radios are part of a system in which emergency responders from different communities are able to communicate with each other using the same radios and system.

Goals for '07 include working with the Fire Department to create a training center in the new municipal building. There will be training tables, DVD / VCR unit and a new LCD projector paid for in part from donations to the squad. This will give us the opportunity to fulfill our required training hours as well as present community educational opportunities such as First Aid & CPR / AED.

We would like to thank the Town for its continued tremendous support. Thanks also go to our members: Bill Arnold, Barbara Arnold, Ray Cotnoir, Kathy Currier, Dana Horne, Alyssa Leclerc, Doug Mayer and Ian Turnbull. Please keep in mind that we are looking for new members. The squad will help with the cost of training and requires that the individual attend squad meetings and respond to calls when able. For more information, contact Bill or Barbara Arnold.

To reach the squad in an emergency, call 911. We will be dispatched along with the Gorham Ambulance.

Respectfully submitted,
Barbara Arnold
Bill Arnold
Co-Directors

Randolph Public Library Report 2006

Highlights from the 2006 summer season include the First Annual "Ducks on the Moose" River Race, an author visit and reading from Poet Ger Killeen, the annual Book & Bake sale, teen movie night, and many book-thirsty pirates taking over the children's room.

Operating hours:

June – 8 hours (volunteer)

July and August - 80 hours (regular operation) plus 4 hours special programs, and 18 hours (volunteer)

September – 10 hours (volunteer)

Winter Book Day – 4 hours (volunteer)

Use Statistics:

Total book circulation – 917

Audio books – 59

Videos – 37

Total visitors – 530

177 new titles were added to the collection, as well as 30 audio books and videos. The existing collection continues to be added to the New Hampshire Automated Information System of the State Library, which enables us to participate in Interlibrary Loan services, and for the first time ever, the RPL received and fulfilled requests from other NH libraries.

Randolph children and friends seeking adventure participated in the NH Summer Reading Program, "Treasure Reading". Many tales were told, ballads sung, and treasures uncovered as we explored the life of pirates on the High Seas.

The Friends of the RPL once again organized many fund-raising activities, sponsored Library programs, and provided many hours of volunteer service. On Saturdays in July and August, Emma Jenkins filled in for Julie Barrow who was unable to be in Randolph. Her husband Tom, an avid reader and friend of the Randolph Library, passed away in August. Over the years, he contributed many books to the Science Fiction and Mystery shelves and provided expert critiques and recommendations for new books. He will be greatly missed at the Library.

The Fundraising Campaign by the Library Building Committee has received an overwhelming response, and we are one step closer to our goal of providing year-round operation.

It once again has been a pleasure to serve your needs and to work with the Board of Trustees, Friends, and volunteers towards providing this valuable community resource.

Respectfully submitted,
Yvonne R. Jenkins, Librarian

RANDOLPH CONSERVATION COMMISSION

Report for 2006

Conserving is our basic mission: land and water, plants and animals, corridors joining habitats. As you hike, ski, snowshoe, bird watch through Randolph, you can see the results of generations who have explored and established areas to be protected. The hardy people of Randolph have understood and continue to see the vitality of our Town in preserving what we have and enhancing what we can.

The Commission is involved in the many little things that add up to our basic mission, i.e.,

- >walking the boundaries of Town-owned open spaces and Town-held easements.
- >reviewing the state Wetlands Bureau permits as required by law.
- >writing support recommendations for the Mountain Club's grant application for trail maintenance.
- >committing \$3,000 of our conservation fund monies to assist in the purchase of the Boothman tract addition to the Town Forest.

Our work is dependent on our volunteer members. We are blessed with caring people who give their time and energy to our mission. We are always on the lookout for people who would like to share in our work. Interested folks can contact any member

RANDOLPH BOARD OF ADJUSTMENT
2006

During the calendar year 2006 the Board of Adjustment heard the following cases:

Dan and Edith Tucker requested a variance regarding Article V Section 02 of the Land Use Ordinance to create a lot with insufficient frontage. The request was granted with no conditions. (This case was a carry over from 2005)

John Martinson requested a variance regarding Article V Section 04 of the Land Use Ordinance to build a shed to store his wood in and locate it within the setback area. The request was granted subject to its being sited no closer than 2 feet from the property line.

William Parlett and Sarah Clemmitt requested an exception regarding Paragraph II of RSA 641:41, requirement for Class V road frontage, to allow the construction of a private residence. The request was granted subject to the condition that the municipality neither assumes responsibility for maintenance of said Right of Way aka private driveway nor liability for damages resulting from the use thereof.

Other meetings centered around discussions of RSAs, land use ordinances of Randolph and other Towns, and Bernie Waugh's update of municipal law.

Respectfully submitted,
The Randolph Board of Adjustment

Randolph Cemetery Trustee Report

The trustees appreciate everyone's cooperation in keeping up the appearance of the cemeteries. There are burial plots available in the new cemetery behind the Randolph Church.

Randolph Forest Commission

Annual Report 2006

As this report is being written, the first commercial timber harvest is being completed on the Randolph Community Forest. The majority of this harvest was accomplished last winter, and where appropriate several areas were cut this past summer. Two small harvest areas remain, and with the ground now completely frozen we anticipate that the Bowman Timber Sale will be completed by this year's spring thaw.

With the revenue that has been generated from this timber sale, the Forest Commission has been able to complete several projects which would not have been possible otherwise. A new permanent truck bridge has been installed on the forest access road which originates at the Randolph-Gorham town line and continues west past the base of Mt. Crescent, replacing the old bridge that was made of hemlock beams and decking which had rotted to the point of being unsafe.

This fall a second proposed timber harvest sale was shown and awarded, the harvest area being primarily located on the eastern portion of the forest from the Gorham town line and continuing west and to the south east and south west of the base of Mt. Crescent. The total sale consists of a gross area of 1,285 acres with cutting confined to 442 of those acres. The timber type is predominately mature northern hardwoods with patches of aspen and paper birch. This sale anticipates harvesting approximately 420 thousand board feet of saw logs and approximately 2300 cords of pulp wood.

The harvest treatments in the sale area will consist of shelterwood cuts, group selection cuts, and small clearcuts where appropriate. The main purpose of this harvest is to continue salvaging those trees damaged during the ice storm of 1998, to improve the overall forest stand, and to promote future tree species diversity. The small clearcuts will provide a secondary benefit as wildlife openings and forest edge zones. These areas provide habitat and feed opportunities for foraging animals including moose, whitetail deer, snowshoe hares and other small rodents as well as providing nesting and feeding sites for those bird species that prefer open areas in which to live and raise their young.

In anticipation of future timber harvests the Forest Commission has purchased three new portable bridges to be utilized at temporary stream crossings where appropriate. These temporary bridges will be installed during the harvest period and removed once a harvest is complete, thus eliminating the need for any permanent structures. The use of these bridges also significantly reduces the potential impact to the water resource because the bridges will span the water course "bank to bank" thus eliminating the installation of culverts or other structures. By eliminating the use of culverts at these sites, the bridges will greatly reduce the associated risks of erosion and the possible degradation of water quality due to the initial work necessary to install the crossing device or the future failure of the device once installed.

During the past year we have also continued with several long-term wildlife habitat projects in conjunction with the US Department of Agriculture's Natural Resources Conservation Service per the provisions of the Wildlife Habitat Improvement Program (WHIP). Work accomplished includes several Aspen and Alder regeneration sites and the creation of a permanent forest opening.

This past August the Randolph Forest Commission sponsored an educational field trip on the Community Forest. This tour was very well attended not only by residents of the town but also by several interested citizens from other towns in the county. The tour explored several of the recently harvested sites from the previous winter and the forestry team described the harvest practices used as well as the reasoning for the harvest prescription and an explanation of the many benefits the harvest provided. Several of the wildlife habitat improvement areas were also visited and there was an opportunity at each stop for questions to be asked of the forest management team. And as if on cue, as the tour was traveling down one of the forest roads to the next stop, a local coyote loped across the road for many on the tour to see.

A priority of the Forest Commission has been the protection of the ecological resources on the Community Forest. We have recently begun a study effort with the US Forest Service to look at several stream crossings on the Pond of Safety Road which have historically been susceptible to erosion due to periods of significant rainfall and spring runoff.

A hydrological study of the drainage areas up gradient from the stream crossings has been conducted and several possible solutions have been proposed. One such proposal is the removal of several of the larger existing problem culverts and replacing them with small bridges or other structures. The design of the new structures will maintain the natural stream watercourse allowing for the normal passage of small fish and amphibians whose travel may have been compromised in the past with the current structures in place.

This past year marks the 5th anniversary of the creation of the Randolph Community Forest. During the first five years a stewardship plan has been prepared and adopted, several important wildlife habitat projects have been initiated, many forest road upgrades and improvements have been accomplished, several important erosion control projects have been completed, and our first timber sale has been successfully concluded.

The Forest Commission anticipates that the next five years will be as busy and productive as the past 5 years, and it is our hope that the residents of the town have an opportunity to hike and explore your Community Forest.

Respectfully submitted:

The Randolph Forest Commission

Planning Board Report 2006

This past year several subdivision applications were presented to the Planning Board for consideration. Of those proposals, a 4-lot subdivision on Rt. 2 just east of the Jefferson Notch Motel has received final approval, with several other projects still under consideration. The approved project consists of an original 26 acre parcel of timberland which has been subdivided into 4 new lots as potential residential house sites.

The board also approved a boundary lot line adjustment on Randolph Hill, the merger of two lots on Durand Road, and the budget of the Randolph Community Forest.

In March, the board hosted the annual Municipal Law Update meeting, which consisted of a review of new laws passed by the legislature and a discussion of the affect they may have on the subdivision and land use regulations currently guiding the future planning of the town.

The board has continued to monitor the Department of Transportation's future highway improvement plans throughout the Randolph Valley, and has encouraged DOT to consider using a finer mix of paving material on future projects, the purpose of which would be the potential to reduce the tire noise from traffic traveling along the Rt. 2 corridor.

A good deal of time was spent this past year reviewing and recommending proposed changes to the town's Telecommunications Regulations. As the demand for telecommunications towers to service this industry grows, the likelihood that a tower will be proposed for a site or sites within the town increases each year.

Federal law requires that towns do not create unreasonable barriers upon the ability of any entity to provide interstate or intrastate telecommunications services. The town however is permitted to reasonably regulate such facilities and to ensure that steps are taken to reduce any adverse impacts these facilities may create, and to encourage the use of innovative siting and configuration options before the construction of new towers is permitted.

The board is also proposing an amendment to the Land Use Ordinance which clarifies that the frontage on a lot shall be "continuous" in order to be considered for the minimum distance of 200 feet as currently required.

The members of the Planning Board would ask you to review the proposed changes to these ordinances, copies of which have been printed on the following pages. The proposed changes will appear on this year's ballot to be voted upon at town meeting.

The Planning Board meets on the first Thursday of each month at 7pm at the town hall. The public is always encouraged and welcome to attend.

Respectfully submitted,
The Randolph Planning Board

Proposed Amendments to The Randolph Land-Use Ordinance

Change the wording of Section 5.02 of the Land-Use Ordinance to read:

Frontage. All lots shall be accessed from a public or private street and shall have a minimum continuous frontage of 200 feet along that street.

Proposed Amendments to The Randolph Land-Use Ordinance Town Forest Ordinance Chapter

1. Change Section 9.02 of the Randolph Land-Use Ordinance to read:

Purpose. This Ordinance is enacted for the purpose of regulating and governing the use and management of those lands which have been, or hereafter shall be, acquired by the Town and designated by vote of the Town as Town Forest lands, in accord with the purposes set forth in RSA 31:111. Such lands have been, or are anticipated to be, acquired subject to conservation easements, held by the State of New Hampshire or other parties, or to be acquired without being subject to such easements. The Town Forest Commission will undertake to place easements on any unprotected lands as soon after acquisition as possible. But, pending the placement of such an easement on such land, or in the event the Commission is unable to make such arrangement, the Commission shall manage the land as if it were covered by the conservation easement covering the original Randolph Town Forest. Since all conservation easements governing Town Forest lands may impose affirmative forest management duties upon the Town, it is the further purpose of this ordinance to ensure that such lands are used and managed in accord with the terms of those conservation easements, and the purposes stated therein.”

2. Change Section 9.12 of the Randolph Land-Use Ordinance to read:

9.12. **WITHDRAWALS.** The Town by majority vote under an article properly placed in the warrant of any Town Meeting, may vote to withdraw an amount from the Forest Management Revolving Fund, and appropriate it to a purpose unrelated to forest management, provided, however, that no such vote shall be valid to the extent that it withdraws any amount attributable to grants or gifts made to the fund, or to the extent that it draws the fund down to a level below that of the total expenditures made from the fund during the previous three years, including payments in lieu of taxes made during those years, less the income from operations during the previous three years. A withdrawal under this Section shall only be made pursuant to a separate warrant article, and not as part of the Town’s operating budget. When such an article appears in the warrant, the Planning Board shall be given an opportunity to present to the Town its recommendation with respect to the article, prior to any vote.

Amendment of Land-Use Ordinance

REVISED TELECOMMUNICATIONS REGULATIONS

DEFINITIONS:

3.02 ACT. "Act" means the federal laws governing telecommunications facilities, as amended, including the Telecommunications Act of 1996, and FCC regulations promulgated thereunder.

3.03 ANTENNA. "Antenna means any exterior apparatus designed for telephonic, radio, television, personal communications (PCS), pager network or any other communications through the sending and/or receiving of electromagnetic waves of any frequency and bandwidth.

3.05 CO-LOCATION. "Co-location" means the use of an existing tower or an existing telecommunications facility, for multiple purposes or users.

3.13 HEIGHT. The vertical distance between a mean finished grade at the base of the structure and the highest point of the roof of a structure and, when referring to a tower or other telecommunications structure, the highest point on the tower or structure, even if such highest point is an antenna and including lightening rods or other apparatus

MONOPOLE - A type of mount that is self-supporting with a single shaft of wood, steel or concrete and a platform (or racks) for panel antennas arrayed at the top, constructed without guy wires.

PERSONAL WIRELESS SERVICE FACILITY or PWSF'S or "facility" means any "PWSF" as defined in the federal Telecommunications Act of 1996, 47 U.S.C. section 332(c)(7)(C)(ii), and any amendments or revisions thereof, including facilities used or to be used by a licensed provider or an FCC-regulated provider of personal wireless services or any wireless telecommunications.

RADIO FREQUENCY RADIATION - The emissions from personal wireless service facilities.

3.31 TELECOMMUNICATIONS FACILITY. "Telecommunications Facility":

1. Includes "personal wireless service facilities" and all other wireless telecommunication facilities such as any structure, antenna, tower or other device which provides services including but not limited to commercial mobile wireless services, unlicensed wireless services, cellular phone services, specialized mobile radio communications (SMR), and personal communications services (PCR) and common carrier wireless exchange access services.

2. Does not include any tower or antenna that is under 70 feet in height and is used solely for non-commercial purposes.

2. Does not include any tower or antenna that is under 70 feet in height and is used solely for non-commercial purposes.

3.32 **TOWER.** "Tower" means any structure that is designed and constructed primarily for the purpose of supporting one or more antennas, including self-supporting lattice towers (not permitted by this ordinance), and including guy towers, monopole towers, and radio and television transmission towers, microwave towers, common-carrier towers, cellular telephone towers, any towers for providing PWSF or any wireless or conventional telecommunications facilities, alternative tower structures and the like.

Article VII - TELECOMMUNICATIONS EQUIPMENT AND FACILITIES

7.01 **FINDINGS.** The Town of Randolph finds that regulation of the placement, spacing, installation, location and number of both wireless and conventional telecommunications facilities, consistent with federal and state policies and law, is in the public interest (a) in order to reduce the potential adverse impacts of such facilities upon the unique natural assets of the Town, including its scenic mountain views, its recreational trail network accessing the White Mountain National Forest and its wilderness environment; (b) in order to minimize the number and height of towers, avoid congestion in their location and lessen their intrusive effect; (c) in order to conserve and enhance property values; and (d) in order to ensure the optimum location of such facilities.

7.02 INTENT.

A. In compliance with Section 253 of the Federal Telecommunications Act of 1996, the Town hereby states that it does not intend to create barriers to the ability of any entity to provide interstate or intrastate telecommunications services.

B. The Town hereby states its intent not to discriminate against or favor providers of telecommunications facilities and services.

7.03 **PURPOSES and GUIDANCE STANDARDS.** The purposes of this Article, which shall serve as standards for guiding its administration, are as follows:

A. To further the goals, objectives, and recommendations of the Randolph Master Plan.

B. To preserve the authority of the Town to regulate the siting of telecommunications facilities and to allow reasonable opportunity for providing telecommunication services to the community.

C. To enable the town to take such steps as may be needed to reduce any adverse impacts such facilities may create, including, but not limited to, impacts upon aesthetics, environmentally sensitive areas, recreational uses of wild lands, historically significant locations, bird flight corridors, health and safety, and to preserve prosperity through protection of property values.

D. To encourage the use of innovative siting and configuration options, including siting possibilities beyond the political jurisdiction of the Town, the use of existing structures, disguised PWSF's, camouflaged PWSF's or custom designed PWSF's to minimize visual impact on the surroundings; to require cooperation and co-location between competitors and the exhaustion of all other reasonable alternatives before the construction of new towers is permitted; and

E. To ensure that there is an adequate assumption of responsibility for maintenance, repair and safety inspections of operational facilities, for the prompt and safe removal of abandoned facilities and for the removal or upgrade of facilities that are technologically outdated.

7.04 REGULATION OF TELECOMMUNICATION FACILITIES.

A. In accordance with RSA 674:16(II) and 674:21, authorizing the adoption of innovative land use controls, the location, siting, establishment, erection, installation or operation of a telecommunications facility within the Town of Randolph is hereby declared to be a use, either a primary or accessory use, which is allowed only when authorized by special use permit.

B. Responsibility for issuance of special use permits shall be vested in the Randolph Planning Board and made part of its Site Plan Review jurisdiction. Permits shall be renewable every three (3) years. When possible this time frame shall be consistent with the timing for the performance bond renewal.

C. Except to the extent of any inconsistency with federal or state law, and subject to the standards contained in section 7.03 of this ordinance, the Randolph Site Plan Review Regulations shall operate with regard to telecommunications structures, equipment and facilities as they do with regard to any other use to which they apply; provided, however, that the Planning Board may make and adopt special provisions of those regulations, consistent with the provisions of this ordinance, for the governing of such structures, equipment or facilities.

D. All telecommunications facilities shall comply with the following standards, subject to such additional specific provisions as are contained in the Site Plan Review Regulations:

1. Towers, antennas or other telecommunications facilities shall be located and designed so as to preserve the ability of the public to enjoy the mountain scenery surrounding the Town, including but not limited to, views of or from the northern Presidential Range of the White Mountains, the Crescent Range, and

other important natural and historical features including but not limited to Randolph Mountain Club hiking trails and riparian areas.

2. The use of DAS (distributed antenna system) or other alternative technologies shall be thoroughly studied and determined to be infeasible before the construction of any new towers is approved.

3. All towers shall be designed to accommodate co-location. No new tower or other facility shall be permitted if service can feasibly be provided through co-location.

4. Towers 70 feet or more in height shall not be located within three miles of any other tower that is 70 feet or more in height.

5. No telecommunications tower shall exceed 20 feet over the average tree canopy height within a one hundred and fifty (150) foot radius of the mount, security barrier, or designated clear area for access to equipment whichever is greater; within the 150 foot radius, the natural buffer and tree canopy shall be preserved.

6. Telecommunications towers, antennas and other electrical and mechanical equipment shall be made with a neutral finish or color or otherwise treated so as to reduce their visual impact; at the tower site the design of the buildings and related equipment structures shall to the maximum extent possible, use materials, colors, textures, screening and landscaping that will blend the tower facilities with the natural setting and character of the area; if an antenna is installed on a structure other than a tower, the antenna and related equipment must be of a neutral color that is closely compatible with the color of the supporting structure so as to make the antenna and related equipment visually unobtrusive.

7. Lattice towers are not permitted.

8. Towers shall not be artificially lighted unless required by some applicable authority, and if lighting is required the Planning Board may review the available lighting alternatives and approve a design that would cause the least impact upon surrounding properties or the community; secondary lighting for towers shall be installed so that it cannot be seen beyond the property line.

9. Towers shall not contain any permanent or temporary signs, writing, symbols or other graphic representation of any kind, except as may be allowed or required by the Planning Board in the interests of public safety.

10. Towers shall be set back a minimum distance of 125% of the height of the tower from all property lines or any off-site structure.

11. Towers, guys, accessory structures and other telecommunications facilities and equipment shall comply with setback requirements applicable to commercial uses.

12. Towers shall be enclosed by security fencing at least 6 feet in height and shall be equipped with appropriate anti-climbing devices; and a landscaping buffer shall be provided that effectively screens the view of the fence and compound from adjacent residential property. The standard buffer shall consist of a landscaped strip at least 10 feet wide outside the perimeter of the compound. Natural vegetation is preferred. Existing mature tree growth and natural landforms on the site shall be preserved to the maximum extent possible. In some cases, such as towers sited on large wooded lots, natural growth around the property may be deemed a sufficient buffer.

13. Access for motorized vehicles to sites where telecommunications facilities are located shall conform to Town requirements relating to driveways whenever possible; but if the Planning Board determines that such conformity is not feasible, it may permit such access subject to any conditions it deems reasonably necessary to minimize the impact of the access route upon the surrounding environment. Any clearing of vegetation done in conjunction with such an access way shall be minimized and shall be considered part of the facility project itself for purposes of applying review standards, including but not limited to paragraphs 5. and 12. of this section. The Planning Board may require whatever vegetation or landscaping plans it deems necessary to ensure compliance with such standards.

14. Balloon test: The applicant shall provide notice of a date on which a visible balloon (or balloons) will be floated at the proposed site at the tallest height of the proposed tower, and provide pictures from all locations around town and within 20 miles from which the balloon(s) is visible.

15. Environmental standards:

A. Telecommunications facilities shall be 75 feet from any wetlands. Telecommunications facilities shall not be located on ridgelines, in such a way as to be visible against the skyline, or near or above tree line or on other fragile ecosystems.

B. No hazardous waste shall be discharged on the site of any telecommunications facility. If any hazardous materials are to be used on site, there shall be provisions for full containment of such materials. An enclosed containment area shall be provided with sealed floor, designed to contain at least 150% of the volume of the hazardous material stored or used on site.

C. If fuel is required propane should be used instead of oil or diesel fuel.

D. The Randolph Fire Department shall make recommendations regarding the safe storage and handling of all hazardous materials located and proposed to be stored on site including fuels.

E. Noise emanating from the facility's equipment shall not be noticeable at the boundary of the lot or beyond. Measurement of noise will be per Article 8.04 of the Land Use Ordinance of the Town of Randolph; the noise standard to be adhered to will be a 0 (zero) Db upper limit on the decibel level at the boundary of the lot at all times of the day and night. Any tower or other facility shall be designed to minimize noise from wind.

F. Radio Frequency Radiation (RFR) Standards: All equipment for the telecommunications facilities shall be authorized and approved for use by the FCC. When measured at the nearest property line of a lot which is or may be occupied, the RFR from the facilities shall not exceed the federal limits for power density levels and shall not interfere with radio and television reception in the vicinity. If necessary a RFR engineer can test for interference at the applicant's expense.

16. For purposes of determining whether the installation of a tower or antenna complies with Town regulations, including but not limited to set-back, lot coverage and other requirements, the boundaries and dimensions of the entire lot shall control, even though the tower or antenna may be located on a leased parcel within the lot.

17. The installation or operation of telecommunications equipment or facilities shall not be considered, or permitted, as an extension of a nonconforming use.

18. The grant of an application for any telecommunications facility has to be based on substantial evidence based on coverage needs. Examples of supporting proof to be provided by the applicant include but are not limited to propagation maps, drive test results that demonstrate need and coverage and capacity of services. All supporting evidence provided by applicant will be reviewed and independently tested and verified by the Reviewing Engineer chosen and hired by the Town at the applicant's expense.

7.05 APPLICABILITY.

Telecommunications facilities shall not be considered infrastructure, essential services or public utilities and the siting of such facilities shall constitute a use of land to be regulated by this ordinance and Town regulations.

7.06 PERFORMANCE STANDARDS and ABANDONMENT.

A. All towers, antennas and other telecommunications facilities and equipment shall meet or exceed current standards and regulations of the FAA, FCC and any other agency of the federal or state governments having controlling regulatory authority and if such standards or regulations are changed, the owners or operators of such facilities or equipment shall ensure that it complies with the revised standards or regulations within 6 months of the effective dates of the revision, unless a more stringent compliance schedule is mandated by the controlling authority; and failure to comply in accordance with the applicable schedule shall constitute abandonment and shall be grounds for the removal of such facilities or equipment at the owner's expense through execution of the posted security.

B. The owner of the facility shall maintain the wireless telecommunications facility in good condition. Such maintenance shall include, but shall not be limited to, painting, structural integrity of the mount and security barrier, and maintenance of the buffer areas and landscaping.

C. To insure the structural integrity of towers and antennas, all facilities will be inspected every 3 years by an engineer approved by the Town, with the cost to be paid by the owner. The engineer will submit a report to the Planning Board. If the report concludes that a tower fails to comply with such codes and standards and constitutes a danger to persons or property, the owner will receive notice that the owner has ninety (90) days to bring such tower into compliance with the standards. If the owner fails to comply within ninety (90) days, such action shall constitute an abandonment and grounds for the removal, in accordance with Section 7.06 (E), of the tower or antenna, at the owner's expense through execution of the posted security.

D. Any antenna or tower that is not operated for a continuous period of 12 months shall be considered abandoned and such antenna or tower shall be removed in accordance with the following procedure:

E. Notification: At such time that a carrier plans to abandon or discontinue operation of a wireless telecommunications facility, such carrier will notify the town by certified U.S. Mail of the proposed date of abandonment or discontinuation of operations. Such notice shall be given no less than ninety (90) days prior to abandonment or discontinuation of operation. In the event that a carrier fails to give such notice, the wireless telecommunications facility shall be considered abandoned upon such discontinuation of operations.

F. Removal: Upon abandonment or discontinuation of use, the owner of the facility shall physically remove the wireless telecommunications facility within ninety (90) days from the date of abandonment or discontinuation of use. This shall include, but not be limited to:

1. Removal of antennas, mount, equipment shelters and security barriers from the subject property.
2. Proper disposal of the waste materials from the site in accordance with local and state solid waste disposal regulations.
3. Restoring the location of the facility to its natural condition, or to a condition approved by the Planning Board.

G. Failure to Remove: If the owner of the facility does not remove the facility upon the Planning Board's order, then the Planning Board shall, after holding a public hearing with notice to the owner and abutters, issue a declaration of abandonment. The owner of the facility shall dismantle and remove the facility within ninety (90) days of receipt of the declaration of abandonment by the Planning Board. If the abandoned facility is not removed within (90) days, the town may execute the security to pay for this.

H. The facility owner shall enter into a written agreement with the Town, in a form to be reviewed by the Town's attorney at the owner's expense, which incorporates, at a minimum, all of the requirements and remedial procedures of this section and Section 7.08.

7.07 WAIVERS. In accordance with Section 253 of the Act, and with RSA 674:21(V)(g), if any entity believes that the procedures or standards contained in this ordinance or in the Site Plan Review Regulations have created a barrier to its ability to provide interstate or intrastate telecommunication services, it may apply to the Planning Board for administrative relief in accordance with the waiver provisions of the Site Plan Review Regulations and the Planning Board may grant such waivers if it determines that:

A. strict adherence with the regulations is not required to effectuate the purposes of this ordinance;

B. strict compliance would create practical difficulty and unnecessary inconvenience; or

C. strict compliance would potentially cause a conflict with the Act.

7.08 SECURITY BONDS.

A. Before, and as a condition of, the approval of a Site Plan filed in connection with the installation of any telecommunications facility, the Planning Board shall require the developer or installer to file with the Town a bond, or other form of security deemed adequate by the Board, in an amount adequate to cover the costs of removing the facility, together with any structures or equipment appurtenant thereto, and of returning the site to its condition prior to such installation.

B. Recognizing the hazardous situation presented by abandoned and unmonitored towers, the Planning Board shall set the form and amount of security that represents the

cost for removal and disposal of abandoned telecommunications facilities in the event that such a facility is abandoned and the facility owner is incapable and/or unwilling to remove the tower. The amount of security shall be based upon the removal cost plus fifteen percent (15%). The removal cost estimate shall be provided by the applicant and certified by a professional civil engineer licensed in New Hampshire. Every five (3) years from the date of the Planning Board approval of the site plan, the owner of the facility shall provide the Planning Board with a structural evaluation and a revised removal cost estimate prepared by a professional civil engineer licensed in New Hampshire. The Planning Board shall revise the amount of the security to be provided by the applicant to be the removal cost plus fifteen percent (15%).

C. The provisions of the Site Plan Review Regulations relating to performance bonds shall apply to a bond required under this Section; provided, however, that it shall remain on file with the Town, and shall not be released unless the installation has been decommissioned, dismantled and removed.

D. The Planning Board shall require the owner/operator of any antenna or tower to provide, annually, proof that it is maintaining adequate liability insurance covering accident or damage.

7.09 ENFORCEMENT.

This Ordinance, or any portion thereof, shall be enforced by the Board of Selectmen or its appointed designee, and they may initiate any and all enforcement procedures provided for by New Hampshire law, including but not limited to criminal and civil penalties under RSA 676:17, cease and desist orders under RSA 676:17-a, local land use citations under RSA 676:17-b, and injunctive relief under RSA 676:15.

*Executive Councilor
District One*

December 2006

107 North Main Street
State House Room 207
Concord, NH 03301

Report to the People of District One By Raymond S. Burton, Executive Councilor

It is an honor to report to the people of this large Northern District in my capacity as Executive Councilor, one of several elected public servants. The five member Council was founded in the NH Constitution and much of NH law provides an additional avenue at the top of your Executive Branch of State Government.

2007 will be a year when members of the Council are charged with conducting public hearings on the State of New Hampshire 10-year transportation plan. With inflation affecting basic transportation costs, and presently no plan for an increase in the State gasoline tax, I don't look for any new projects becoming a reality. We'll be lucky to complete what is currently in the plan.

I continue to seek volunteers to serve on the 300 or so Boards and Commissions as prescribed by New Hampshire law. There are some great opportunities to serve your state government! Send your letter of interest and resume to my office, or to Kathy Goode, Director of Appointments/Liaison to the Council, Governor's Office, State House, 107 North Main Street, Concord, NH 03301. Tel. (603) 271-2121. To find out what openings are available and to see a list of boards, visit the NH Secretary of State website at: www.sos.nh.gov/redbook/index.htm.

The NH web site is a very valuable for citizens. If internet is not available to you, use your local public or school library to go to www.nh.gov and find all state agencies, general court (representatives) and senate members, mailing addresses, and where legislative bills and proposals are. I send my weekly schedule to some 500 e-mail addresses that include town offices, county officials, district media, NH House and Senate members, and others. If you would like to be on that e-mail list please send your e-mail address to rburton@nh.gov. I often include other public notices and information.

It is an honor to continue to serve you now in my 29th and 30th years as a public servant. Contact my office anytime about your ideas, concerns and problems with state government. I respond to all inquiries and challenges.

Sincerely,

Town of Randolph
130 Durand Road
Randolph, NH 03593

This has been another busy year at the Council. As we began our 34th year as a Planning Commission, we reaffirmed the Council's commitment to serve community and regional needs.

We have instituted a number of new initiatives over the past year that we will continue to work on in the coming year. The Northern Forest Sustainable Initiative is a major undertaking which we are working on with our partner, the Northern Forest Center. We continue to develop our Community Planning Outreach program and participation by the communities continues to increase. Transportation Planning continues to be a priority and in the coming year we will be submitting input to the Ten-Year Transportation Plan as directed by all of our member communities. We are increasing our activity in Environmental Planning and will be introducing a number of programs under this umbrella. All of our programs and services can be found on our new website at www.nccouncil.org. Please visit us there and give us some input as to how we can better help the region and our communities. We welcome all of your input and will continue to expand our capabilities based on our communities needs.

Thank you for all of your support of the Council. I hope that my staff and I can continue to be of service to your community. The Council is here to serve you. It is your organization. Our staff and Board are committed to responding to community need. If there is a project or a need in your town, please call us. We are dedicated to both supporting our individual towns and promoting regional unity in the North Country.

Respectfully submitted;

Michael King
Executive Director

ANDROSCOGGIN VALLEY REGIONAL REFUSE DISPOSAL DISTRICT

2006 ANNUAL REPORT OF DISTRICT ACTIVITIES

The AVRDD 2006 Budget apportionment for our member municipalities totaled \$722,864.50. A surplus of \$442,498.03 from the 2005 budget was used to reduce apportionments with a net budget of \$280,366.47 being billed to the member municipalities. The proportionate share of the credit for the Town of Randolph was \$4,290.07, reducing your gross apportionment of \$7,011.01 to \$2,720.94. Preliminary reconciliation of the 2006 budget shows a surplus of approximately \$377,135.20 being available to credit toward 2007 apportionments.

Our Materials Recycling Facility marketed a total of 1,715.21 tons of recyclables for the period January 1, 2006 through December 31, 2006, representing \$119,362.94 of marketing income to the District.

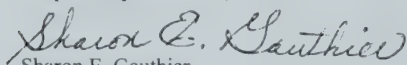

For calendar year 2006, our Transfer Station received 3,361 deliveries from District residents for a total of 891.18 tons of bulky waste and construction and demolition debris. In addition, our 193 commercial accounts delivered 716.24 tons of bulky waste and construction and demolition debris and 509.63 tons of wood. Recycling at the Transfer Station consisted of 1,238.40 tons of wood that was processed through a grinder, 503.12 tons of scrap metal, 253.27 tons of leaf and yard waste and 112.02 tons of brush which was chipped with the District owned chipper. In addition, 468 refrigerators/air conditioners; 929 propane tanks; 6,875 tires; 9,134 feet of fluorescent bulbs; and 862 pounds of ballasts were recycled. We also received 2,135 gallons of waste oil from our residents which was used in our waste oil furnace to heat the recycling center. Transfer Station recycling income totaled \$35,151.68. The Recycling Center and Transfer Station are operated, under contract with the District, by FERCO Recycling, Inc. of Berlin.

Election of officers was held at the District Annual Meeting in April 2006: Raymond Chagnon of Berlin was re-elected District Chairman; Clara Grover of Errol was re-elected Vice Chairman and Earl Wadsworth of Dummer was re-elected Secretary-Treasurer. Other District Representatives are: Yves Zornio of Gorham, David Tomlinson of Randolph, Linda Cushman of Jefferson, Paul Grenier for the Coos County Unincorporated Towns, Lorna Aldrich of Northumberland, George Bennett of Stark and Richard Lamontagne of Milan.

In June, the District conducted its fifteenth annual Household Hazardous Waste Collection Day. The collection was held at the District Transfer Station with 308 households participating. The project was funded through the District Household Hazardous Waste Fund, with an assessment of seventy-five cents (\$.75) per capita to the District communities. In addition, a grant from the State of New Hampshire reimbursed the District at twenty cents (\$.20) per capita. The next Household Hazardous Waste Collection Day will be held Saturday, June 2, 2007 at the District Transfer Station.

2006 was the fourth year of operations for the AVRDD-Mt. Carberry Landfill. Since purchasing the landfill in December 2002, no assessments have been made to the District municipalities for Mt. Carberry Landfill operations, with income raised through landfill tipping fees covering operating expenses. Any landfill funds remaining at the end of the year will be held in reserve, by the District, to pay for Mt. Carberry operating and capital expenses. The landfill is operated, under contract with the District, by Cianbro Corp.

Respectfully submitted,

Sharon E. Gauthier
Executive Director

WEEKS MEDICAL CENTER
— DARTMOUTH-HITCHCOCK —

**Home Health & Hospice
Services**

**Annual Report – 2006
Town of Randolph**

Beverlee Richter, Home Health and
Hospice Nurse, shares a tender moment
with a hospice patient.

Weeks Medical Center-Home Health and Hospice is grateful for the opportunity to serve the residents of Randolph and greatly appreciates your continued support and confidence. Town funding is critically important and is used to assist families and individuals who are unable to pay for Home Health and Hospice Services and to support care where funding does not cover direct costs.

Our Home Health and Hospice Services continue to provide Randolph residents with a wide range of services. Weeks Home Health and Hospice provides continuity of health care from the hospital to patients' homes. Services include skilled nursing; physical, occupational and speech therapies; licensed home health aides; homemakers; medical social services; intravenous therapies and care to the terminally ill.

Our Medicare Certified Hospice program continues to provide excellent palliative care to the terminally ill. Weeks Hospice is a special kind of holistic care . . . focusing on the emotional and spiritual needs of the family, as well as the physical needs of the patient at the end of life. No one is refused care based on an inability to pay. Over the last year, an increasing number of hospice patients received care, support and love from our nurses, aides and volunteers. To celebrate their memory, a luminary service was held and many residents from area towns were in attendance.

Thank you for your continuing support and confidence.

Board of Selectmen
Town of Randolph
107 Durand Road
Randolph, NH 03570

Dear Selectmen:

Tri-County Community Action is requesting **\$600.00** in funding from the Town of Randolph to help support its Community Contact Program. Community Contact is the field services arm of Tri-County CAP. Our purpose is to assist low-income, elderly and handicapped persons to solve problems and meet their physical and financial needs. We accomplish this by providing information, counseling, referrals, budget counseling, guidance, and organizational assistance and by effectively linking households with CAP assistance programs and using community resources.

Below is a breakdown of assistance that CAP Community Contact office provided to Randolph residents over the last year:

	<u>Households</u>	<u>Dollar Amounts</u>
Fuel Assistance 2005-2006	11	\$ 9,644.00
Food Pantry Visits	2	\$ 648.00
Electric Assistance	4	\$ 1,522.00
Total	17	\$ 11,814.00

Weatherization

Community
Contact
(603) 752-3248

R.S.V.P.
(603) 752-4103

Energy Programs
(603) 752-7100

Housing, Economic &
Community Dev
(603) 752-7001

Community Contact provides necessary services for the less fortunate citizens in our communities, who would otherwise have to seek help from the town. We are depending upon funding from your town and neighboring communities countywide. The local funds are combined with the Community Services Block Grant, Fuel Assistance and NH Emergency Shelter Grant, Homeless Programs and FEMA. We also are the conduit through which the USDA Surplus food gets distributed to food pantries, including our own, throughout Coos County in order to serve our residents.

If you have any questions, please don't hesitate to give me a call at 752-3248.

Sincerely,

A handwritten signature in cursive script that reads "Cindy Baillargeon".

Family Resource Center @ Gorham Annual Report

February 8, 2007

In 2006, the Resource Center provided direct services to approximately 1,000 low income children, youth and families in Randolph and the surrounding communities. Hundreds of others received referrals to other services, attended a class or workshop here or received clothing from the “Boutique”-a free second hand store.

The direct services the FRC staff provided included home visiting for families at risk of abuse and neglect, after school programs, substance abuse prevention activities, workforce development training, computer classes and parenting workshops. The Center also sponsored “Coats for Community” which provided free donated winter clothing to over 400 individuals and “Operation School Supplies” which provided 234 needy students with backpacks and school supplies to start the school year. Last year the Center provided over 80 low income families and seniors with free on-line tax filing and returned over \$60,000 in refunds and tax credits and we have already started this program up again for this year.

Residents from Randolph have participated in the Center’s after school program, computer classes, parenting workshops, workforce development program and free income tax preparation program in 2006. We have also had several Randolph residents participate on the Center’s board of directors and volunteer in many of the programs.

We are grateful to the Town for its support as we continue to offer skills and build capacity for the children, youth and families of the Androscoggin Valley.

Respectfully Submitted,

Catherine P. McDowell
Executive Director

School Board Report 2006

One of the last actions of the Randolph School Board was to hire two local historians to research the history of education in Randolph. Corey Gagnon and Dick Conway have spent long hours digging for information and poring over town reports and board meeting minutes in an effort to capture the facts about education in Randolph over the last 100+ years. Randolph's founding fathers had a strong commitment to education and this compilation is intended to honor that commitment which has carried forward to the present day. No history, however, can ever be complete without the stories and memories of the students past and present who actually took part.

If you were one of Randolph's students, or have a family member who was one of Randolph's students, please take time to share those moments with us. Did you ride the train to school? Was your father or grandmother a star scholar in the "Red Schoolhouse"? What was the school day like? What were your fellow students like? What are your fondest memories, or ones you would like to forget? Do you have any pictures, report cards, or other mementoes that could be included?

You can mail your comments to

Randolph School History Project
c/o Angela Brown
7 Randolph Hill Road
Randolph, NH 03593

Or convey them via other means:

Email: angela_f_brown@yahoo.com
Phone: 603-466-2578
Fax: 603-466-5278

Assistance can be provided for scanning pictures or other items. Jpg or pdf files can be sent via email. Any items will be returned.

The completed project will be shared with the entire community.

Thank you in advance for your willingness to take part and share your piece of Randolph history.

Angela Brown
Carol Gagnon
Kathleen Kelley

School Board Auditors' Report

This is to certify that we have examined the books, vouchers, bank statements, Treasurer's reports and other financial records for the Randolph School Board. Records for the period beginning July 1, 2005 and ending with the closing of the last account on September 18, 2006 were found to be correct and in order.

PLANNING BOARD

John Scarinza, Chairman

The planning board meets at 7PM at the Town Hall on the first Thursday of the month. All meetings are open to the public.

BOARD OF ADJUSTMENT

Ted Wier, Chairman.

Call the Chairman for dates and times of meetings. All meetings are open to the public.

ROAD AGENT

Mike Gray, Road Agent

Please notify The Road Agent at 586-7840 if you have any issues or concerns with the road conditions.

SCHOOLS

Randolph is part of the Gorham, Randolph, Shelburne Cooperative School District. District information can be found at the SAU20 website: www.sau20.org.

SELECTMEN 466-5771

Kenneth Lee, Chairman

The Selectmen meet every other Monday. Please contact the office to set up an appointment to meet with Selectmen. All meetings are open to the public.

TOWN FOREST COMMISSION

John Scarinza, Chairman

The committee meets at 7PM at the Town Hall on the first Wednesday of the month. All meetings are open to the public.

TAX COLLECTOR 466-9856

Scott A. Robinson

The tax collector is available by appointment.

TOWN CLERK 466-5771

Anne Kenison, Clerk; Suzanne Lowe-Santos, Deputy Clerk

The Town Clerk (or Deputy) is available at the Town Hall from 9 AM to 11 AM every Monday, and 7 PM to 9 PM every Wednesday. Please arrange to do your business at these times.

TRASH COLLECTION

Every Tuesday, beginning at 7 AM. Do not put out trash before Tuesday Morning. Please make arrangements for someone to put out your trash if leaving Town before Tuesday. Do not place hazardous waste in your trash, there will be a special collection at AVRDD, usually in June.

Recyclables must be separated and are collected on the first Thursday of each month. Recyclables can also be dropped off at the AVRDD facility on Rt 110 in Berlin. See the Town Website www.randolph.nh.gov for information on recycling.

Permits are available at Town Hall to take bulky waste to the AVRDD facility.
